GitHub: github.com/darrennnnnn | Portfolio: darrennathaneil.vercel.app

A Computer Science fresh graduate streaming in Data Science, specializing in web development with a focus on React.js and Next.js. A fast learner and highly adaptable developer, always eager to learn new skills and technologies, constantly seeking opportunities to expand my knowledge.

EDUCATION

Bina Nusantara University

Sep 2022 - Mar 2026

Bachelor in Computer Science

- **GPA:** 3.74/4.00
 - **Focus:** Web Development and Data Science.
 - **Relevant Coursework:** Algorithm and Programming, Program Design Methods, Human Computer Interaction, Algorithm Design and Analysis, Database Technology, Artificial Intelligence, Software Engineering, Machine Learning.
-

EXPERIENCE

Application Developer Intern | PT. Bank Central Asia, Tbk

Feb 2025 - Feb 2026

Placed in the Data Management team within the Software Quality Improvement subteam. Focused on developing both frontend and backend systems for an internal web application, developing AI-driven solutions, and exploring frameworks and tools.

- Developed frontend and backend systems for a web application with **FastAPI** and **FastHTML**, conducted stress testing using **JMeter**, utilizing **Docker** to containerize the applications and automate deployments to production.
- Utilized LLMs to create internal tools such as an automated Unit Test Generation API, Documentation Generator API, and explored Agentic AI workflows with **LangChain** and **LangGraph**.
- Conducted explorations on **KServe** for machine learning model inference and **MongoDB** for database performance benchmarking.
- Enhanced critical thinking, adaptability, and collaboration skills by analyzing technical requirements, troubleshooting issues, and working within **Agile** framework.

Student Volunteer | Teach for Indonesia

Dec 2022 - Nov 2023

Participated in multiple volunteer activities, focusing on educating children. Delivered presentations on anti-bullying, nationalism, and religious topic to students ranging from elementary school to high school.

- Anti-bullying campaign at BPK Penabur VI Christian High School (Dec 2022)
 - Nationalism education at Panti Asuhan Insan Harapan (Jun 2023)
 - Religious activity at Panti Asuhan Cahaya Kasih (Nov 2023)
 - Enhanced public speaking, teamwork, and communication skills by engaging young audiences with creative approaches.
-

SKILLS

- **Technical Skills:** Python, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, React.js, Next.js, FastAPI, LangChain, LangGraph, Pandas, NumPy, Scikit-learn, Docker, Git.
 - **Soft Skills:** Teamwork and Collaboration, Critical Thinking, Public Speaking, Presentation Skill.
-

PERSONAL PROJECTS

- **Nutrizen:** An app that uses external API to allow users to get an estimated nutrient count of their meals. It includes gamification features to motivate users to consistently track their calories and improve their eating habits. Built using **Next.js**, **Typescript**, **Tailwind CSS**, **Prisma**, and **PostgreSQL**.
- **NontonSkuy:** A web application to explore and discover movies, uses TMDB API to fetch and display trending, popular, and top-rated movies. Users can search for films, view details such as ratings, genres, and summaries. Built using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- **Stress Detection Website:** A website to classify whether stress is present in a sentence using a machine learning model. Built using **Next.js**, **Tailwind CSS**, and **Python (scikit-learn, Flask)**.
